ISSUE

The Town of Morden performs custom work and rents out equipment that it owns from time to time. In order to maintain consistency, rates should be set out prior to the work or rental taking place.

OBJECTIVE

To establish rates for custom work and equipment rental under the umbrella of the Works and Operations Department.

POLICY

The Town of Morden shall refer requests for custom work and rentals to local private operators where available. Where the custom work or equipment is not readily available from private operators, and the Public Works Director determines that the Town's employees and equipment under his authority may be made available, the following rates shall be used.
