

180 - 8th Street

William Bell, a carpenter, built this wood frame house in Nelson in the early 1880s. It was moved to Morden shortly after it was built and Mr. Bell's daughter Mrs. Bill Livingston resided there for many years.

This house is a 2nd Empire French Style house with several notable features including a gambrel roof, Italianate brackets and window frames that enhance the 1½ storey residence.
