

# **PUBLIC NOTICE: 2017 Proposed Pesticide Program**

## **PUBLIC NOTICE**

### **2017 PROPOSED PESTICIDE PROGRAM – CITY OF MORDEN**

Public notice is hereby given that the City of Morden may conduct the following Pesticide Control Programs during 2017. An Integrated Pest Management Plan (IPM) has been developed for the City and will act as a guide for pest prevention, treatment and management. One of the goals of the IPM is to reduce the use of chemical controls by means of using preventative, mechanical, and biological controls. The City will adhere to provincial legislation and regulations pertaining to the use and implementation of a pesticide program.

1. For the control of noxious weeds within the City of Morden and in accordance to the Noxious Weed Act, Environment Act and the Non-Essential Pesticide Use Regulations between May 1st and October 31st the following herbicides may be used:

- Fiesta (Iron HEDTA)
- Par 3 (mecocorp-p, 2,4-D, dicamba)
- Round-up (Glyphosate)

2. To control larval mosquitoes in stagnant/standing water, within the City of Morden and 1 mile beyond the city boundary on public property, rights-of way, and ditches between May 1st to October 1st 2017 the following biological larvicides may be used include:

- Aquabac (*Bacillus thuringiensis* var. *israelensis* –Bti)
- Vectobac (*Bacillus thuringiensis* var. *israelensis* –Bti)

3. To control adult *Culex Tarsalis* mosquitoes carrying WNV along streets and lanes, City parks, golf courses, cemeteries and rights-of-ways within the City boundaries between May 1st and October 31st 2017 by way of ultra-low volume mist sprayers the following insecticide may be used:

- Malathion ULV (malathion)

4. To control elm bark beetles, the carrier of Dutch Elm Disease, by spraying Pyrate (chlorpyrifos) onto the lower 50cm of elm trees on both public and private property from approximately June 1st until October 15, 2017.

5. To control other insect pests between May 1st and October 31st 2017 the following may be used:

- Safer's Trounce Insecticidal Soap (potassium salts)
- Copper Fungicide Spray
- Foray 48B (Btk)
-

6. To prevent Dutch Elm Disease a fungicide injection containing Eertavas (Carbendazim-hydrochloric) will be injected into the root flare of American Elm trees.

7. To control Emerald Ash Borer a system insecticide containing TreeAzin (Azadirachtin) will be injected in the root flare of Ash trees.

Any person may, within 15 days after this notice is published, send a written submission to Manitoba Conservation regarding the above control program or register with the department their written objection to the use of pesticides next to their property to:

Manitoba Conservation and Water Stewardship  
Pesticide and Hazardous Waste Section  
Suite 160, 123 Main Street  
Winnipeg, Manitoba R3C 1A5

Any person who may wish to discuss the control policy may also contact the City of Morden, Parks Department at 204.362.3999 or email [sdias@mordenmb.com](mailto:sdias@mordenmb.com)
